

Cookie Policy

A-Z GLOBAL

Last update 24.11.2022

This website utilizes cookies, which are text files stored on a computer system through an Internet browser. Many websites and servers employ cookies, which often contain a unique identifier known as a cookie ID. This ID is a character string used by websites and servers to associate the cookie with the specific internet browser in which it is stored. This enables visited sites and servers to distinguish one browser from others that may have different cookies, thereby recognizing and identifying a particular web browser through the cookie ID.

We use cookies to ensure the functionality of our website (Art. 6(1)(f) GDPR). You have the option to prevent our website from setting cookies by adjusting your browser settings to object to the use of cookies. Additionally, you can delete any previously set cookies through your internet browser, a feature available in most commonly used browsers. However, please note that disabling cookie settings in your browser may limit the full usability of our website.

Furthermore, we employ cookies and other tracking technologies for the following purposes:

- Assisting with navigation on our website
- Facilitating registration for events, webinars, portals, and providing feedback
- Analyzing the usage of our products, services, and downloads

- Supporting our promotional and marketing efforts, including content personalization and behavioral advertising

We do not intend to transmit cookies to third-party countries outside the European Economic Area.

Please find below a comprehensive list of the cookies used on our website. We regularly scan our website using a cookie scanning tool to ensure the accuracy of this list. We categorize cookies into the following groups:

- Strictly Necessary Cookies
- Performance Cookies
- Functional Cookies
- Targeting Cookies

You have the option to opt-out of each cookie category (except strictly necessary cookies) by clicking on the "cookie settings" button provided.

Cookie List: A cookie is a small data file (text file) that a website asks your browser to store on your device when you visit the site. It allows the website to remember certain information about you, such as your language preference or login details. These cookies are set by us and are referred to as first-party cookies. Additionally, we use third-party cookies, which originate from a domain different from the website you are currently visiting, for our advertising and marketing endeavors. Specifically, we utilize cookies and other tracking technologies for the following purposes:

Strictly Necessary Cookies: These cookies are essential for the proper functioning of the website and cannot be disabled in our systems. They are typically only set in response to actions you take, which constitute a request for services, such as adjusting privacy preferences, logging in, or filling out forms. While you can configure your browser to block or alert you about these cookies, certain parts of the site may

not function properly if you do so. These cookies do not store any personally identifiable information.
